

THANK YOU FOR DOWNLOADING MY MUSIC!

I hope that you will enjoy it, like I enjoyed making it.

In the past I was making music with more ambitious objectives, trying to be a professional musician. Now, a little bit older and having a successful career with my own company in the home interior business (www.bartbrugman.com), music is still my passion, but making it has become a (very serious) hobby.

In the past I used to write songs, with lyrics, and used to sing. Now, creating instrumental music, without too much pretention, is what I like most. Originally inspired by Trey Gunn and his album "Music for Pictures" (www.treygunn.com/music-for-pictures) and also by the music of my late brother Theo Brugman (www.bartbrugman.com/blowphones.html), I created a collection of tunes that can be considered as 'easy listening' music, but that will hopefully sound a little bit more intelligent and entertaining than 'muzak'.

All tracks (mp3, 320kbps) have been tagged and can be easily imported in your iTunes or other music libraries.

I have added visuals to most of the tracks (www.youtube.com/bartbrugman1) and also posted these tunes (and some others) on <http://soundcloud.com/bartbrugman> in case you might want to share my stuff with others.

Please keep in mind that all rights are reserved to Bart Brugman and that commercial and/or all other abuse is of course illegal.

BART BRUGMAN

D I X O INSTRUMENTAL BACKGROUND MUSIC
